Claims 1 to 6 are pending.

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. This application is in condition for allowance except for the following formal matters:

A...Figures 18 to 23 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

B...The title of the invention is not adequately descriptive. A new title is required that is more clearly indicative of the invention to which the claims are directed. One possible title would be -- Magnetic Recording and Reproducing Apparatus including an Idler Mounted On A Main Chassis --.

C...The abstract of the disclosure is objected to because of awkward language. In line 3 "which" should be changed to, for example, -- having --, and in line 4, "first reel and second reel" should be changed to, for example, -- first and second reels --.

D...Claim 2 is objected to because of the following informalities: line 3, it appears "in the section" would more appropriately read, for example, -- on the section --.

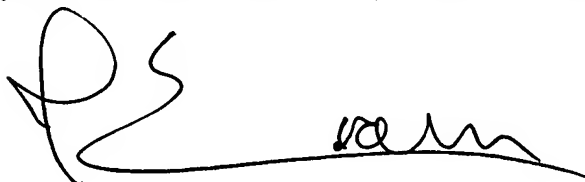

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
